

A Pride of Lions

Who knew the streets of Cambridge were being prowled by so many big cats! From the University's crest itself to the Lion Yard shopping centre, walk around Cambridge and you can find these magnificent beasts everywhere. Can you find these examples? Clues on the map inside.

Over to you!

There was space for only a few of the animals in the architecture of Cambridge in the Safari Trail. Share your pictures of animals in the buildings of Cambridge through Facebook and Twitter, #cambridgesafari

This trail is part of the University of Cambridge Museums Summer at the Museums programme. For more details visit www.cam.ac.uk/museums-and-collections

Wonders of the Animal Kingdom: A New Museum of Zoology

The Museum of Zoology is currently closed for major refurbishment supported by the Heritage Lottery Fund. In order to realise our ambitious plans and provide a Museum that our collections deserve, we need to raise additional funds. Any donation, however small, will help. Visit our website for details: www.museum.zoo.cam.ac.uk/museum.redvelopment

And follow our blogs to follow our progress and discover more about our collections:

Cambridge Safari

How many animals can you find lurking in the buildings of Cambridge? Follow the map inside to guide you to zoology in the architecture, and send us pictures of the animals that you find!

Carved and Cast Creatures

Take a close look at the architecture of Cambridge and you can find all sorts of animals carved in stone, cast iron and more. Can you find these examples from around the City Centre?

1. The wise owl on St Andrews Street - take a close look above the shop windows. Walk further down and you can find this magnificent pair of yales (mythical horned creatures) above the gates to Christ's College where Darwin himself once studied.

3. A couple of crests in the Market Square: Seahorses of a sort on the Guildhall and a camel above the shop windows nearby.

5. Can you find these of rather wonderfully carved rams heads around the buildings on Sussex Street?

6. This green snake is coiled around the ironwork of the gate belonging to Magdelene College.

7. Some marvellous molluscs carved into the college walls along Trinity Street.

8. Travel into the centre of Parkers Piece, and you can find these fabulous fish swimming around the lamppost.

Animals are swarming over the buildings of the old colleges. Take a walk past St. John's, Trinity, Gonville & Caius, King's, down the side streets and around the backs to find as many as you can. Draw them here or take a picture.

15. A human skeleton on this sculpture reminds us of the layers of Cambridge History. Find more animals just over the road at the Museum of Cambridge and Kettle's Yard.

There are lots of animals in this zone around Lloyds bank and Sussex Street. Can you spot a beehive, a squirrel or a blue porcupine? Draw them here or take a photo.

13. Tucked away near the Whipple Museum are some noble stags. Can you find them? When the Zoology Museum reopens in 2016 it will be possible to get to the newly refurbished galleries through this arch.

14. Spot the woolly Mammoth on the outside of the Sedgwick Museum next door to the Museum of Archaeology and Anthropology

9. These beautiful carvings of penguins, fish and a polar bear overlook visitors as they enter the Scott Polar Research Institute

🦁 Lions for the pride

🐾 Other animals to spot

12. Can you see all three types of animal on the coat of arms at Darwin College? Carry on down Sidgwick Avenue to find all sorts of animal carvings and casts at the Museum of Classical Archaeology.

11. Another pair for the Pride of Lions at the Fitzwilliam Museum!

10. Hobson's conduit runs into town past the Botanic Garden. Where it flows under Lensfield Road is a monument featuring another lion for the pride.
