

Make your own...

# Christmas Tree Worm Christmas Decoration!

To make your  
*Christmas Tree Worm:*

1. Decorate the circle and cut out. Then cut into the circle following the spiral line.
2. To make it look even more like the real thing, cut little snips into the spiral all the way round to make a fringed edge.
3. Being very careful, make a hole in the centre (you can do this by putting a piece of blue tac or plastacine on a solid surface and pushing a hole through with a pencil). Thread through some thread or ribbon to hang up your decoration!
